HAMILTON, CANADA, MONDAY, JANUARY 24 1916

# GERMANY WORRIED BY TIGHTENING OF BLOCKADE---London Confident Belgium Would Not Consent to Separate Peace

# TEUTON FORCES READY FOR SALONIKI ASSAULT

320,000 Austro-Germans, With Heavy Artillery.

# French Planes Raid Monastir-Albanian Campaign.

Military operations in the Balkans are just at present mainly confined to Albania, Austrian occupation of Montenegro having virtually been completed with the taking of the Adriatic coast town of Antivari and Dulcigno, reported yesterday. In the interior, the disarming of Montenegrin soldiers is proceeding, according to ad-vices from Teutonic sources.

What the policy of the Entente Powers may be towards attempt; the reorganization of Montonegrin affairs has not yet been made ar. King Nicholas has reached Rome on his way to Lyons, noc, where the Montenegrin Government has its present head-arters, and where plans for the future seem likely to be developed.

In Albania, according to a Saloniki correspondent, there is taking place a renewal of the Austro-Bulgarian offensive, which is declared to be meaning the Italian expeditionary force. The Bulgarians and the Austranas are said to have occupied Berst, an important town in the interior, northeast of Autona, and their advance on Avlona, which is held by the Italians, is indicated as imminent. Other Austrian forces are reported moving toward Durazzo, where Albanatian forces are reported moving toward Durazzo.

Such differences of a serious nature as may have arisen between redoc and the Entents Fowers would seem to have been smoothed erg, assuming the corrections of a news agency dispatch from thems, which states that negotiations for a loan by the Entents Powers to Greece are nearing a favorable concl (Continued on Page 5.)

#### THE WAR SITUATION.

THE WAR SITUATION.

The Amsterdam story that Germany is seeking-separate peace with Beliam may be just another phase of the same story from other quarters. The occurred received in view in circulating these peace in view in circulating the peace of the contract of the contract with trying to make Rassia beliam that the contract will conclude a separate peace with Germany. This particular Belgiam if that country will conclude a separate peace, the only other specified condition being that Britain little her blockade against Germany. The contract will be contract with the peace of the contract will conclude a separate peace, the only other specified condition being that Britain little her blockade against Germany. The way to the contract will be a first tale. Not only in Belgium, but in France, the German witcher are continually dropping printed bilis telling that the German base no compitally against them—that it is defined that it is their enterny districts and the contract with the district when the contract contract contract with the fighting part of the German poole with hold out through this too. He declares that Britain reach to annihilate them, and he asks them to strike declares that Britain reach to annihilate them, and he asks them to strike of the consequences, and without look of the consequences and without look.

ey lost. Air raids on the coast and on the city of Metriculary's programme.

#### THE SCHOOL BUILDINGS.

other city architects show what they could do in the way of building schools. Mr. Peene has done fairly well. Let somebody cise save a chance. Then there might be less talk of rings and combines. There are enough of censitive men on the Board to see the fairness of the provinces!

#### AS TO PEACE ?

AS TO PEACE?

We hear of Germany trying to make separate piece with Belgium, with Serbia and with France. We hear of war after this war. We hear of crushing German militarium, and we hear of Germany destroying the British Empire. Each constant look to the end of the war with its particular self dictating the terms of piece. But are there carms and a will give he word peace? British for hereal believes that there can be real peace unless Germany is completely subdued and humiliated, until her militarium in Sestroyed and other militarium in Sestroyed and other self-series and self-series.

have always found the result beneficial and necessary to keep strength and prevent breaking down in the long training sesson. I have always recommended its use, within reason, of course, to any athletes who have come under my care, and have found

EM200 P.O Connor Champion broad jumper of the world.

# Alfred Shrubb

Alfred Shrubb, the holder of all middle distance amateur records, and the most famous runner that the world has ever produced, now coach of Haryard University distance runners, says:

"During my running career I always drank beer, and since, as a trainer, I have never prohibited its use in moderation by the most I housely."

grank peer, and sunce, as a transler, i nave never prohibited its use in moderation by the men I handle. "In my opinion, any men in training would be benefited by a glass of beer occa-sionally. Or course, excesses of all kinds are injurious to men, whether in or out of train-

# **Bob Dibble**

Bob Dibble, for three successive years amateur champion sculler of America, and one of the finest specimens of Canadam manhood in the overseas army, says:

"I have always taken a bottle or two of beer while in my course of training, and have found it to be a big advantage to me."

**Not Teetotalers** E CITIZENS' COMMITTEE OF ONE HUNDRED has made an appeal to the sporting fraternity to join the new movement for Prohibition and "to line up with Connie Mack, Ty Cobb, Jess Willard, Hughey Jennings and Eddie Collins." To strengthen this appeal we are told what these well-known profession-

Jennings and Eddie Collins." To strengthen this appear we are told what these works and others have said as to the awful ravages of drink in the realm of sport.

The question is, however, whether these alleged statements were ever made. At any rate, Jess Willard, whose name appears in great, black type as champion of the Water Waggon, said some time ago, "I drink a glass of lager beer occasionally, and I believe the malted beverage is restful if drunk moderately," and then he added, "There is more bad liquor sold in Kansas than in any other State of the Union"—and he ought to know, for he, himself, is from Kansas, a Prohibition State.

But to come down to facts. Almost all great sportsmen and athletes have used alcoholic beverages and the overwhelming majority have trained on them.

# You Know These Men

Among these may be mentioned: Martin Sheridan, American ati-round champion; John J. Flanagan, the weight-putter; Matt McCrath, champion 56-lb, weight thrower of the world; McIvin Sheppard, champion middle distance runner; Raiph Rose, weight putter; Alfred Shrubh, champion runner; W. J. Sherring, Marathon winner; Fred S. Cameton, Boston Marathon winner; A. F. Duffy, champion 100 yards; B. J. Wefers, champion 220 yards; Tommy Conneff, mile champion; E. J. Webb, English wiking champion at two and seven miles; G. E. Larner, champion winter of the world; P. O'Connor, champion broad jumper of the world; Mcadows, long-distance runner; Con Walsh, champion weight-thrower; Dorando Pletri, Marathon winner; Johnny Hayes, Marathon winner; Abel R. Kiviat, champion middle-distance runner, 1914; Battling Nelson, and a nost of others.

That prominent athletes consider beer a great upbuilder, in fact a food rather than a stimulant by the signed declarations given herewith.

# On Field and Stream

And what about the great mass of sportsmen in general—the golfers, oarsmen, ball players, bowlers, curlers, and so on in Canada? Stimulants have been beneficial in their training.

And what about the foreign sportsmen—the Belgians, who won at Henley; the French, who are the greatest wordsmen, and now rank among the best boxers of the world; and the Swiss, the finest gymnasts in the world; all trained and brought up on beer and wine?

But even were everything true that is said against drink by the Citizens' Committee of One Hundred, it has still to be shown that Prohibition is correct in principle, and workable in practice; and this cannot be done, for again and again has it been tried and found wanting.

# The Vital Need of the Hour

\$100,000 a day wasted on drink in Ontario! That's over \$30,000,000 a year! We cannot afford that colossal expenditure in times like these. We require the money for our Empire's and our own more vital needs. "I'm going to stop it," says "Old Man Ontario." Go to it, "Old Man Ontario." You've got the people of this great Province overwhelmingly with you, as you will see when the petitions for prohibition are circulated this week.

As a War Measure, if for no other reason, prohibition is a vital necessity in Ontario. The calls for money for the Patriotic Fund, the Red Cross, War Loans, Charity, and other worthy things run away up into the millions, and make imperative the conservation of our common wealth. Russian savings bank reports show that savings increased five thousand (5,000) per cent. in the eight months following the prohibition of the sale of vodka.

# For the Good of Our Province

Business Men, isn't it to the Province's best interests to stop this colossal waste of money expended for alcoholic beverages?

Parents, wouldn't you feel more secure and happier if the temptations and evils of strong drink, that accomplish the ruin of so many young men and women, were banished from the land?

Moderate Drinkers, you know that in the present crisis the Province has need of all its resources in men and money. Are you willing to sacrifice a drink or two a day for the benefit of the country?

Civilians, Soldiers, Business Men, Working Men, Moderate Drinkers, Abstainers, Men of all political and religious faiths; is it not your solemn duty to support to the fullest extent of your powers this great prohibition movement?

The Citizens' Committee of One Hundred have taken the prohibition question out of party politics, so that every man in the Pro-vince can give his whole-souled support to the cause without injury,

to his party. The Citizens' Committee has no political ambitions. It was organized solely with the one object of uniting the people in a non-partisan campaign to secure a DRY Ontario.

The Citizens' Committee have every confidence that the Government will act in conformity with public opinion. It is now up to the people to do their part. Sign the petition for prohibition. The petition simply asks the Government either to pass a prohibitory law at the meeting of the Legislature or to submit the question to a vote

Sign the petition quickly. By doing so you will help our canvassers get over their routes in the appointed time and secure the maximum number of signatures. Anything you can do to help our canvassers secure signatures, and secure them quickly, will be for the good of the cause. Let everybody help!
